

Power Quality Professionals

- Factory Direct Dealer & Channel Partner
- UPS kVA Range 10kVA-750kVA / 3 phase
- Offering Transformerless and Isolated Transformer type: Voltage range: 120v/208v/240v/400v/480v/600v
- Industrial UPS. kVA range; 10kVA-40kVA Available in 208v & 480v, single or 3 phase
- Emergency Lighting Inverters: 1 Phase 350W - 21kW / 3 phase 9kW - 225kW
- Power Conditioners & Frequency Converters Ratings; 3 phase / 208vAC 10 - 60kVA; 480vAC 65 - 500kVA
- Power Factor Correction Banks & Active Harmonic Filters

Smart-UPS by APC

Intelligent and efficient network power protection from entry level to scalable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other network devices.

Power Distribution Strips

- Managed ePDU: Provides monitoring and switching at the individual outlet level.
- Monitored ePDU: Allow users to remotely monitor current draw of the unit and its individual sections.
- Advanced Monitored ePDU: Provides outlet-level monitoring of power usage in kilo-watt hours.
 - Switched ePDU: Provides remote power monitoring of both voltage and current.

- Factory Direct Dealer
- Now Offering Clean Energy Solutions
- Standby Generators for Commercial & Home: 9kW to 150kW
- PWRcell Model offering Battery backup with Inverter for Solar Expandability.
- PWRcell Battery Modules: 9kW, 12kW, 15kW & 17kW
- PWRcell Inverter in 120/240v single phase & 120/208v 3 phase

Power Quality Professionals

Telecommunications

- -48V Distributed power solution for CO's, MSC's, Data Center and Cable Headend facilities (DPCO)
- Each 2500A bay combines rectifiers, battery termination and distribution
- Dual bay kit links two 2500A bays doubling capacity, breakers and termination
- High efficiency modular rectifiers reduce operating costs

Industrial, High Temperature UPS

- Medical Precision Instrumentation
- Military Applications
- Traffic / ITS Industry

Design: On-Line Double Conversion Topology
Power Ratings: 560VA - 3,000VA
Voltage Ratings: 120, 208, 220, 230, 240V

Medical Grade UPS & Power Conditioners

Controlled Power Company manufactures uninterruptible power systems (UPS) that are UL 60601-1 listed. Ideal for patient/attendant vicinity medical systems. For three-phase applications that include CT, MRI, PET, Linear Accelerator, X-ray, and other imaging/treatment equipment.

- MedpowerRX : Single Phase 700VA - 2.1kVA
- SureImage Model Ultra KM: 3PH, 75K(i), 112.5K(i), 150K(i), 225K(i)

GE Lineage – 48vdc plant

DC Power & Inverter Systems

- ◆ Switchgear, Telecommunication
- ◆ Fiber Optic Cable applications
- ◆ Voltage Ratings: 24vdc, 48vdc, 130vdc input/output
- ◆ Voltage Ratings with Inverter: 24V, 48V Input / 120, 208, 240vAC Output
